SOUTHERN NEW ENGLAND STUMPAGE PRICE SURVEY RESULTS
THIRD QUARTER— 2013

The table below summarizes reported prices paid for standing timber during the **THIRD quarter of 2013 (JULY - SEPTEMBER)**. Prices for sawtimber are in $ per thousand board feet (International ¼-inch scale). Fuelwood is reported in $ per cord, biomass and pulpwood in $ per ton. The ***Range*** shows the high and low prices reported. Half of the prices reported are below the ***Median***; half are above. Reporting is voluntary, and this is not a complete record of sale activity in the southern New England region. A **total of 36 timber sales were reported for the THIRD quarter of 2013**. Sale characteristics (in percent):

This information is meant to be used as a **guide only. Use with care**. Prices paid for standing timber can be influenced by many factors, including but not limited to: timber quality, distance to market, accessibility of property, sale volume, market demand, season, skid distance, terrain, landowner requirements, method of sale (e.g., competitively bid, or directly negotiated), and logging costs.

This survey is a result of joint efforts of Cooperative Extension at the University of Massachusetts and the state forestry agency in RI.
