

Southern New England stumpage price reporting. First quarter 2011.

Submitted comments:

- How about having reports on what firewood is selling for cut, split, delivered.
- Can't ship white pine
- Build all the biomass plants now!
- Pine is almost impossible to move past month
- Paid way too much – so far I've lost money on most species. Job is only about ½ done. Hope for a big over run.
- Markets appear to be shakier than 2010 because in the beginning of 2010 lumber inventories were very low, that's
